Department of Nursing

Master of Science in Nursing Student Learning Outcomes

Upon completion of the MSN Family Nurse Practitioner program, students will achieve the following end-of-program student learning outcomes:

SLO 1 - Health Promotion and Disease Prevention: Utilize evidence-based nursing practice activities to promote health and prevent or reduce the burden of mortality, morbidity, and health disparities from physical and mental health problem.

SLO 2 - Communication: Communicate collaboratively with patients or students, colleagues and interdisciplinary health care professionals addressing issues impacting nursing, healthcare, and educational policies using multiple literacies and technologies.

SLO 3 - Analytic, Contextual and Holistic Thinking: Integrate evidence, clinical judgment, and theoretical perspectives while engaging in scholarly activities (research, publication, presentations, etc.) using analytic, contextual, and holistic thinking, as well as ethical reasoning, self-awareness, ah2 Tw [(a)1 (wa)1
